

Knowing braided
together.

In addition to scientists, we need
a broad range of experts with
different perspectives. We need
more ways of

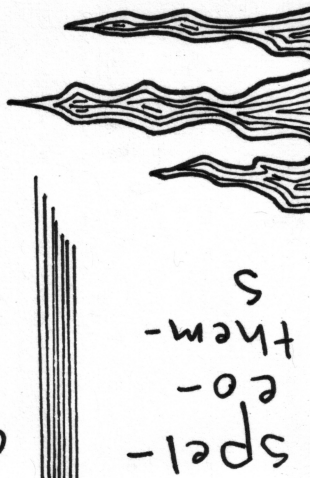

- Public policy . corporate responsibility
- Reuse . Recycle . Reduce
- Renewable energy
- Regenerative agriculture

Climate
action

Economic
opportunity
for all

- Housing with dignity
- Living wages
- Public transit
- Good public schools
- Trees and parks

Temperature

Scientists also
develop technologies
and designs to
reduce greenhouse
gas emissions.

Time
is the
essence

Scientists study how
climate impacts
water resources,
wildfires, and
the migration
of plants and
animals.
